WHAT IS DOTSAMA MAGAZINE?

Meet, learn and have fun

Dotsama Magazine, created by Coin Reference, is a way to broadcast news never before seen in the Dotsama system... creating a unique magazine where readers can see the most relevant events of the week at a glance.

Published every Sunday, Dotsama magazine aims to be a knowledge and entertainment center for readers.

POLKADOT DECODED

The awesome Polkadot Decoded event is over! We have been able to enjoy many talks, future plans and connections between the different projects within Dotsama!

Now you can enjoy all the recorded presentations for those who want to listen to the event again, which is really necessary!

EVENTS

The Polkadot team has already announced the next big Polkadot event in Lisbon (Portugal)... the Sub0!

The Sub0 is a conference for developers from all over the world, where they can get closer to the blockchain world with what they like... the code!

STARTALE LABS

Web3 for Billions

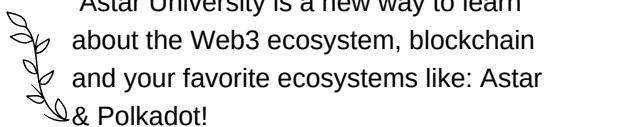

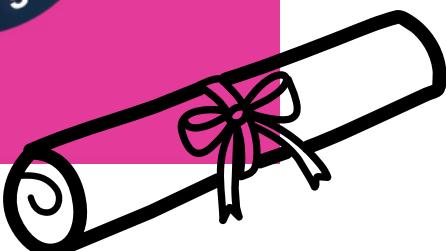

Startale Labs is a company that makes web3 infrastructure and public goods

Startale Labs is a leading web3 tech company driving web3 mass adoption on Japan's most widely-recognized public blockchain, Astar Network, and making blockchain-based solutions a reality.

works with a wide range of collaborators powering web3 innovation, and bringing Web3 to billions!

ASTAR UNIVERSITY

Astar University is a new way to learn about the Web3 ecosystem, blockchain and your favorite ecosystems like: Astar & Polkadot!

You will also learn how to get your first dApp on the blockchain learning programming languages like Rust, Swanky and much more!

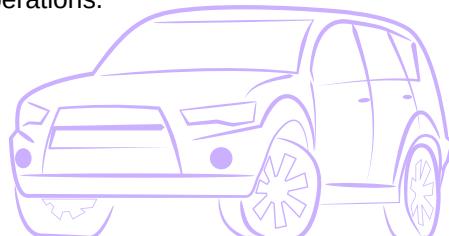

What are you waiting for to reserve your place at the university?

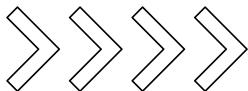

FIRST TOKENIZED TESLA

As part of the integration, ELOOP has equipped 100 Tesla Model 3s and Model Ys in its fleet with self-sovereign peaq IDs, linking them with the peaqnetwork. This forms a decentralized physical infrastructure network (DePIN) for the future of mobility.

The car-sharing service Eloop and the Peaq Network — a Web3 ecosystem for the economy of things — announced that 100 Teslas had been tokenized via Peaq. The blockchain integration allows users to own a fraction of the fleet and share the revenue the cars generate from daily rideshare operations.

POLIMEC X DELOITTE

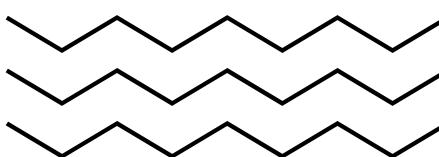

Polimec, a decentralized funding protocol developed on Polkadot, and Deloitte Switzerland are joining forces to issue reusable KYC (Know Your Customer) credentials enabling access to global fundraising of digital assets.

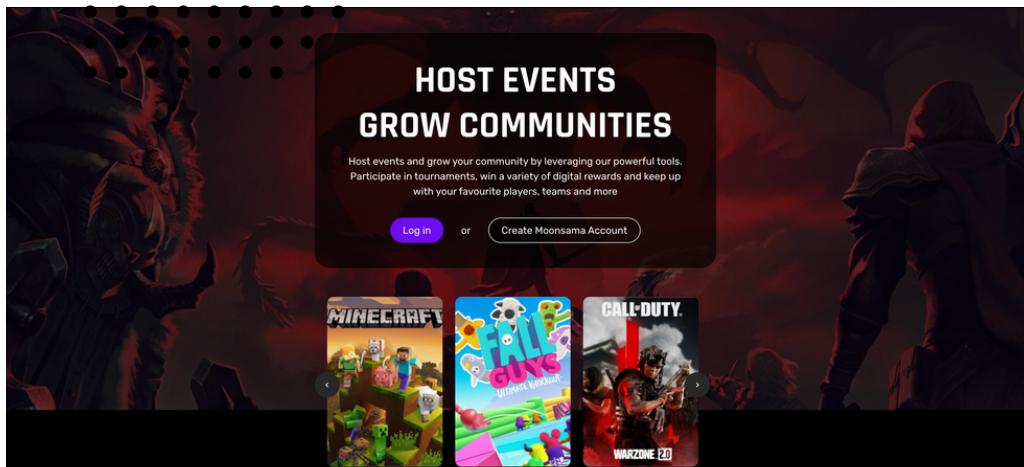

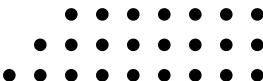

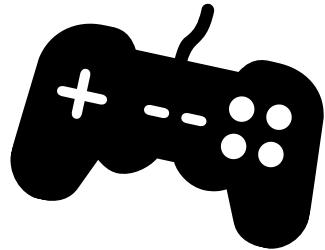

Banking grade standard KYC credentials, issued by Deloitte, streamline the process of participating in early-stage fundraising on Polimec. The credentials are anchored on the KILT blockchain, providing an additional level of regulatory compliance, security, and data privacy.

Polimec **Deloitte.**
